WRITING : 1/15/2003

The following poem is a theme of " My Country" meeting the requirement of the assignment. It can also be splitted into three poems each starting the work with the same letter.

1. China

China which I left so long is my native land.

Chinese language to me is easy to be learned.

Characters like pictures are so beautiful.

Compassion, deep in my heart, is so profound.

Culture developed in years of five thousand.

"Center of the world" is what the old time named.

Compatible and friendly to the present world.

Constructive and contributive to all mankind

2. Taiwan

Taiwan for some mainlanders once was a haven

To live there for twenty eight years like a sudden

Taiwanese and Chinese are actually the same race

Two sides should be unified but not to threaten.

Togather, to lift the people from limbo to heaven.

3. America

America is our finally settled beautiful country

At a horizon our loves are deep with no boundery

Altogether with my family and some friends here

Affection and helpfulness are in this community.

Amazing, I have the chance to join the company.
